## Welcome to the Carrier Inspection Results Search

Per California Assembly Bill 529 Vehicles: Motor carriers: Inspections, the California Highway Patrol (CHP) is required to provide the public with the outcome of terminal inspections performed in the State of California. This site provides searching parameters to find the carrier that may potentially own or uses a terminal within California. Carriers can be located outside of California, but, terminals must reside within California.

Please use the search parameters provided to research the carrier for which you wish to view inspection results. Results of the search are returned, you may click on the Carrier (CA) / Motor Carrier Permit (MCP) number link and you will be redirected to that carrier's inspection results.
